"DEVELOPMENT THROUGH COLLECTIVE EFFORT"

PUBLIC ADVISORY

The Maritime Administration Department wishes to advise that the deplorable condition of the Guyana Fertilizer Company Wharf located at 15-16 Holmes Street, Georgetown, Demerara River, poses a serious risk to the safety of persons and vessels using the facility.

Therefore, the Administration strongly advises that this facility, being unsafe, should not be used by vessels for berthing, or cargo operations.

However, understanding the importance of this facility to vessels trading locally, the Department is committed to working with its owners and/or operators to make it compliant with all recognised safety and operational standards.
